Type of Crafts Manufactured

Pottery and Ceramics ;

Method used

I create functional and decorative ceramic ware, as well as artistic one-off pieces at my studio in Berlin. I teach wheel throwing and hand building to adults and children at the studio as well as at the Berlin International School. The majority of my work is wheel throwing on the pottery wheel using a variety of stoneware

Type of Crafts Manufactured

Ganutell and Monastery ;

Method used

Ganutel is a fine intricate art where the fine gold or silver wire is spun with silver thread to form flowers and then these flowers are made into beautiful bouquets. The bouquets can be placed in frames, special vases, bridal bouquets, and many other items. In the olden days, these flowers were made by the nobility of Malta and the Cloister nuns.
